Letter of Recommendation

To Whom It May Concern,

I am pleased to write this letter of recommendation for Giovanni Cipoletti who served as an intern in our Information Technology and Information Security Departments at Washington Financial Bank. During his tenure from May to August 2025, I had the privilege of working with and mentoring Giovanni as he contributed to our team's mission of maintaining robust security and supporting our IT operations.

From the outset, Giovanni demonstrated a strong grasp of technical concepts with a keen interest in cybersecurity. He quickly adapted to our environment, showing proficiency in areas such as new device staging, installation and technical troubleshooting. He also had hands-on experience with our SIEM and security stack.

Beyond technical skills, Giovanni consistently exhibited professionalism, reliability, and a collaborative spirit. He worked effectively with colleagues to resolve complex issues, responded promptly to requests from employees, and contributed to a handful of projects. His willingness to learn, attention to detail, and dedication to team goals set him apart from his peers.

In summary, I highly recommend Giovanni for any future opportunities in Information Technology and/or Cybersecurity. His technical acumen, work ethic, and positive attitude will be a valuable asset to any organization. Please feel free to contact me if you require further information.

Sincerely,

Anthony J Brozovich

Anthony Brozovich, CISSP
Vice President - Information Security Manager
Washington Financial Bank
